

DRUG SCREEN POLICY

Please Read Before Signing In

Drug screens are performed Monday through Friday.

Donors may begin signing in at 8:30 AM.

Drug screen collections begin at 9:00 AM.

The last sign-in for drug screens is 4:20 PM.

This cutoff is necessary to allow for the 20-minute wait policy and to ensure all drug screens are completed before the courier arrives to transport specimens to the lab.

Wait Policy

A 20-minute wait policy is in place. This is to ensure the validity of the specimen, and that a sufficient amount can be provided.

Donors must remain in the building after signing in and be ready when called.

If a donor is unavailable or not ready when called, the drug screen may be rescheduled or refused.

Wait times may exceed 20 minutes depending on clinic volume and patient care demands.

Restroom Policy

Donors may not use the restroom prior to being called back.

Minors will need a parent or guardian to sign a release form

~Thank you for your cooperation.
